Subject: RE: south fork controlled correspondence

I don't think the R2 response will be ready for a while, so it will just be the letter for now. It also touches on a number of other issues, including PFAS.

Subject: south fork controlled correspondence

Jeff,

As you may have heard, Administrator Regan received a letter last week regarding the offset requirements in the South Fork permit. This letter is currently in the controlled correspondence system, and R2 has the lead for the response with regard to the South Fork permit (see pages 21-28).
